

### REMARKS

In the Office Action, the Specification is objected to because it contains alleged informalities. The Examiner asserts that the term "terminal" should be replaced with the term "electrode" as used, for example, on page 9 of the specification. In response, Applicants have amended the specification consistent with the parent cases (e.g., U.S. Patent Nos. 6,387,562 and 6,706,080). Applicants believe that the changes made to the specification were made for clarifying reasons, and thus, should not be deemed as to have a narrowing effect on the scope of the claimed subject matter.

For the foregoing reasons, Applicant respectfully submits that the present application is in condition for allowance and earnestly solicits reconsideration of same.

The Commissioner is hereby authorized to charge deposit account 02-1818 for any fees which are due and owing.

Respectfully submitted,

BELL, BOYD & LLOYD LLC
